I. Learning Outcomes Assessment

The following section outlines the annual review and revision of the institution's course, program, and institution learning outcomes. This annual review provides a structure for identifying, suggesting, and implementing revisions based on an organized evaluation process.

A. Initial Review Orientation

1. The Associate Director of Assessment organizes and administrates indirect and direct student learning outcomes assessment. The assessment of learning outcomes at all levels with triangular methods assures that data is gathered to enable administrators and faculty to complete the assessment cycle of utilizing classroom and student input for improving courses, programs, and ultimately the institution.
2. Planning for learning outcomes assessment
 - a. Core inventories (SES, GSS)
 - b. Direct assessment of course, program, and institution learning outcomes
 - c. Indirect assessment of courses through student course evaluations at the end of each semester and in some cases, focus groups of individual programs
3. Review and Compilation of outcomes data

B. Determine Review Schedule and timeline

1. Course outcomes
 - a. Faculty review and polish outcomes for the Master Course Syllabus during scheduled program reviews.
 - b. Using the Master Course Syllabus for their course outcomes, faculty develop their syllabi. All syllabi, including the Master Course Syllabus for all courses, are housed in Concourse for syllabus development ensuring consistency of school policies. We are working toward ensuring consistency of course learning outcomes based on the Master Course Syllabus
 - c. Indirect assessment of courses-Course evaluations in December, May, and July for on ground courses and at the conclusions of each online session.
 - d. Direct assessment of course work-August 2021 Assessment Day
 - e. Aggregation and summary report writing-Fall 2021
2. Core Inventories
 - a. Student Experience Survey (SES) – April 2020
 - b. Graduating Survey (GS)-June 2020
 - c. Graduate Job Placement Survey (GJPS) – May 2021 in conjunction with graduation
3. Aggregation and summary report writing for direct and indirect assessments -August-September 2021

C. Significant findings:

1. The fall 2020 and spring 2021 program reviews utilized CoursEval (end of course student evaluations) in a new and productive way this past year. The Associate Director of Institutional Assessment and the Research Analyst developed reports for each program,

highlighting course benchmarks, survey item averages, and course averages for the surveys. This newly added data was very productive piece of indirect assessment data for the committee to include in its data analyzation process.

Overall CoursEval averages for the General Education courses, program review courses, and selected courses for program, institutional, and Seminary outcomes assessment all average in the “Excellent” category.

The CoursEval team continues to develop new ways to utilize the software in order to bring additional information to institution stake-holders.

2. Over the past spring and summer TKU hired an online learning consultant, Dr. Sergio Matviuk, to bring consistency to the online learning courses. This project worked in conjunction with the spring Core Curriculum program review and make appropriate edits to the designated course learning outcomes for the Master Syllabi in Concourse
3. The results of this year’s (summer 2020) Direct Assessment Day revealed several important findings.
 - a. First, it was discovered that by replacing the undergraduate capstone assignment with a new one, it does not assess the Institutional outcomes like the previous one. This means that Academics needs to revisit the new assignment and/or determine new ways to assess designated program outcomes and institutional outcomes.
 - b. Second, results indicated a less than “successful” score for two entry level courses: BIBL 1300 Introduction to the Bible and BIBL 1305 Old Testament Survey. This indicates a need for further review of the assignment instructions, the rubric, course evaluations, etc., in order to make changes that could lead to future improvement.
 - c. The BIBD 7310 Jewish-Christian Relations paper did not achieve a “successful” rating by the three juried assessors. The program review committee determined that this course should not be a course designated as capable of assessing the two MDiv MJS program outcomes it was aligned with, because students can elect to enroll in the course at any time in their program, even the first semester. The MDiv MJS capstone course needs to be reworked and aligned to assess all of the program outcomes effectively.
4. The Student Experience Survey (SES) and Graduating Student Survey (GSS) are on a 5-pt. Likert scale; the performance standard for the learning outcome assessment items on these two surveys is a total aggregate score of 4.0/80% (minimum score for “successful”) and 4.5/90% (minimum score for “excellent”). These two surveys report student perception of learning at The King’s.
 - a. The current overall learning outcomes score of 4.37 on the GSS by 2021 graduating students is in the “Successful” range and shows a slight trending increase from 4.25 in 2019 and 4.30 in 2020. The top two areas of personal growth and educational outcomes were “Trust in God” and “Enthusiasm for learning.”
 - b. The learning outcome line items as reported on the SES show a total average of 4.35 (87%) for on ground students and 4.39 (88%) for online students. Both scores indicate “Successful” learning as perceived by TKU students.

5. Seminary Annual Assessment Projects (AAP):

The Doctor of Ministry program in following up on the directive from the 2019-2020 program review developed and proposed three possible concentrations: Spiritual Direction and Formation, Pastoral Theology in Practice, and Women in Ministry Leadership. Each concentration will require the same core courses as the existing Messianic Jewish Studies concentration, the same four research courses, and the same six hours of project. Each, however, will have its own unique four courses for 12 hours of concentration.

The proposal has gone through the approval process up to the President's Cabinet and will be presented to the Board of Trustees at their October 23, 2021, meeting.

B. Assessment of Enrollment Management Plan

1. Recruitment & Admissions

The Fall 2020 Admissions funnels were as follows:

The Admissions team demonstrated resilience and responded quickly to the cancellation of the Fall 2020 recruiting season. The efforts of the recruiting efforts are demonstrated as follows:

- Number of completed call tasks **increased 43%** from 3,943 in 2018-19 to 5,645 in 2019-20.
- Number of campaigns and emails sent as well as email campaign open rate increased from:
- 67 campaigns, 77,750 emails, and 14,448 opened emails (18.58% open rate) in 2018-19 to...
- 117 campaigns, 246,094 emails, and 58,882 opened emails (23.93% open rate) in 2019-20.

Departments across campus (Admissions, Marketing, Student Financial Services, Campus Life) worked together to do our best to overcome the challenge. We responded in the following ways:

- **Virtual Tour:** All TKU individual visits were accomplished virtually. Admissions and Marketing worked together to provide two options for virtual tours. The current TKU virtual tour may be found here: <https://www.tku.edu/virtual-tour/>
- **Virtual TKU Experience:** In May, we launched the first of monthly virtual events that included a peek into the classroom, chapel experience and conversations with faculty and staff. 24% of all Fall 2020 admits “experienced TKU” before enrolling.
- **Virtual College Fair Booth:** Many college fairs offered virtual experiences. You will find an example of TKU’s virtual fair booth here:

<https://myblueprintstory.swoogo.com/ChristianCollegeFairs2020/sponsor/67085/the-king's-university?i=P5GX3u4Qzblc2K55yUtmU3mE6EmBIAw>

- **Webinar Series:** Program Directors and faculty joined the admissions team online to provide information to prospective students. <https://www.tku.edu/admissions/visit-tku/>

2. Financial Aid Options

- **Increased scholarships:** TKU released \$125,000 in scholarships to be used for Fall 2020 enrollment.
- **Incentives:** Financial incentives for webinar attendance and “Apply by” discounts for virtual visit attendees were offered throughout the Fall cycle.

3. Student Success, Retention and Student Life

- **Student Onboarding:** The office of student engagement offered virtual orientation and onboarding events for all TKU students. The increased matriculation rate is evidence of the good work of this team.
- **Care Calls:** Every TKU student receives a mid-semester “care call” from a member of our staff. The purpose of this call is to pray with the student, encourage them to register for the upcoming semester, and troubleshoot any current barriers to a positive student experience.
- **Campus Life Support:** The COVID-19 crisis, though difficult, did offer many opportunities for innovation. One of the most positive innovations we experienced was increased engagement with our online student community through chapel livestream, daily online chats and prayer, and virtual events.

4. Marketing Strategies

Many of the initiatives listed above were the combined efforts of Admissions and Marketing. However, the Marketing team also launched the Church In:Tension website as part of a newly designed content marketing effort. This, along with our digital advertising efforts increased overall traffic to the tku.edu website, and increased TKU/S brand awareness through the content provided by our faculty and staff.

C. Summary Review and Recommendations

1. Based on current online student trends, it is recommended that the summer online course offerings be expanded in order to offer more opportunity for continuing students, especially, to advance in degree completion. This will be established for the Summer 2021 academic schedule.
2. The need for a campus-wide strategic enrollment management plan is evident to the teams referenced here. The flat or nominal growth over the previous few years indicates the need for greater strategic planning and enrollment expertise. Vetting and contracting with outside enrollment management consulting is recommended as a vital next step in Fall 2021.
3. Continued focus on external enrollment marketing is necessary for enrollment growth. The use of external marketing firms for marketing plans should be considered as TKU opens new and expanding programs for the 2021-22 cycle.

V. Evaluation of Facilities and Operations

The following section outlines the annual review and evaluation process for assessing facilities and operations. This annual evaluation provides a structure for determining necessary data both for annual reporting and for implementing improvements for increased effectiveness based on data-driven decision-making. VI. Review and Sustainability of Assessment Plan

The following section outlines the sustainability process for the annual review and revision of the Assessment Plan as well as the continual Implementation and Effectiveness of the Assessment Processes. The Plan provides a structure for positively navigating changes in institutional resources and priorities.

A. Annual Review of the Assessment Plan

1. Assessment Additions
 - a. A template was added to the Assessment Plan (and subsequently, the Assessment Plan Summary Report) for the Library assessment.
 - b. The program review template was improved by adding three new types of data:
 - i. The admissions funnel data a Marketing report about its digital and hard copy data.
 - ii. A program specific report from CoursEval that provides data from student responses to individual items from the end of course evaluations for program-specific designated courses.
 - iii. The requirement for each program to complete a curriculum workbook as part of the program review that itemizes the following: mission statement for the program, program objectives, and outcomes, and each course's description and outcomes.
2. Software Search
 - a. The Assistant Director of Institutional Assessment led a search to discover assessment software that would enable TKU to move from assessment-by-hand to digital software that could generate more effective data, enable better assessment collaboration, and act as a repository for archived data.
 - b. The search was narrowed down to four possibilities and a recommendation will be made during the 2021-2022 academic year.
3. Annual Review and Implementation of Assessment
 - a. Assessment findings were presented to primary stakeholders through meetings, digital reports, and on the web site. Findings and recommendations were reviewed by the Board of Trustees during their bi-annual meetings and by administrators in the Undergraduate Academic Council, the Graduate Academic Council, the Deans Council, and the Directional Leadership Team. The faculty reviewed findings and discussed recommendations in the faculty meetings and program reviews.
 - b. Recommendations for modifications, adjustments, revisions, and other changes in curriculums and new program development were based on assessment findings of institutional effectiveness data, institutional assessment data, review of program outcomes, comparability studies, and SWAT analysis.
 - c. Changes were identified, summarized, and documented in Fall 2021 Assessment Plan Summary Report and the Fall 2021 Institutional Assessment Tracking and Implementation Report.
 - d. Assessment findings and implemented changes were linked to planning and budgeting goals and initiatives through the Integrated Planning System of the Strategic Plan. Findings regarding performance evaluation were reviewed by the department heads and utilized in current budgetary planning objectives, metrics, and timelines.
 - e. On-going support was provided for the participants and consumers of the institutional assessment process through the Department of Institutional Assessment and Research.

B. Sustainability of Institutional Assessment

1. The annual institutional Assessment Plan along with instrumentation is in place to ensure the continuity, management, implementation, and on-going effectiveness of the Assessment evaluation and reporting process.
2. Although the administration and faculty are engaged in the assessment process, steps are continually being taken to bring about more strategic institutional involvement with the assessment process at all levels.
